BERETTA

2023 FIREARMS CATALOG

YOU CAN ALWAYS
COUNT ON A BERETTA.
WE PUT ALL OF OUR HEART,
OUR MIND, THE EXPERIENCE,
AND THE WILL TO GIVE YOU
ALWAYS SOMETHING NEW,
SURPRISINGLY NICE,
SUPER RELIABLE,
THAT WILL GIVE YOU JOY
EVERY TIME YOU USE IT.

WELCOME TO BERETTA,
WHERE 500 YEARS OF TRADITION
GO HAND IN HAND WITH THE MOST ADVANCED
TECHNOLOGIES TO CREATE UNIQUE PRODUCTS.

FOR SOME IT'S A GENTLEMEN'S HUNT,
FOR SOME IT'S HANGING OUT WITH BUDDIES.
FOR SOME IT'S A BIG FAMILY,
FOR SOME IT'S A JUST A CREW.
FOR SOME IT'S AN AFTER-WORK GROUP,
FOR SOME IT'S LIKE AN ALUMNI NETWORK.
FOR SOME IT'S BEING IMMERSED IN NATURE,
FOR SOME IT'S SAVORING ITS MOST AUTHENTIC TASTE.
FOR SOME IT'S A CLIQUE OF CONNOISSEURS,
FOR SOME IT'S A 1 MILLION CLICK COMMUNITY ON FACEBOOK.
FOR SOME IT'S A WOMAN THING,
FOR SOME IT'S A FATHER AND SON THING.

BUT ALL TOGETHER, THESE PEOPLE MAKE UP
THE LARGEST FAMILY OF HUNTERS THAT EVER EXISTED.
BECAUSE IT STRETCHES BACK 500 YEARS,
RIGHT TO THE START OF THE BERETTA DYNASTY.
...IT IS THE BERETTA TRIBE.

BE PART OF THE

#BERETTATRIBE

Beretta's long expertise in shotguns allowed it to create the best products for small game hunting.

Beretta shotguns combine the superior ballistics of Steelium® technology with 500 years of barrel-making experience, unmistakable design, reliable mechanisms in all conditions, and the minimal maintenance requirements that made Beretta a world-renowned brand.

686 SILVER PIGEON I

686 Silver Pigeon I

The 686 Silver Pigeon I is Beretta's most popular over and under shotgun of all time. Based on the superb 680 platform, with its unmistakable low, slim action and legendary, ultra reliable mechanism; it won the hearts of shooting enthusiasts the world over. The 686 Silver Pigeon I incorporates the perfect ballistics of Beretta's highly reputed Steelium® Optima-Bore® HP barrels and it features a defined floral engraving, which is further enhanced with images of grapes on the vine and the iconic Beretta Three Arrows logo on both sides of the action. All of which combines to make the 686 Silver Pigeon I the most elegant, well-balanced and quick-to-shoulder, factory-made shotgun in the world.

687 SILVER PIGEON III

687 Silver Pigeon III

The 687 Silver Pigeon III shotgun represents an elegant evolution of the Silver Pigeon I, designed for shooters looking for the reliability and minimal maintenance requirements of the 680 platform, presented with attractive aesthetics and a superior wood finish. The fine game scene engraving is embellished by a special sparkle in the bas-relief areas for a pleasant contrast effect, while exquisite gloss finish enhances the grain of the stunning grade 2.5 wood, protects it from rain and improves longevity.

All these features are combined with the excellent ballistics guaranteed by the Steelium® Optima-Bore® HP tri-alloy steel barrels.

The Silver Pigeon evolves with the V version: the efficiency, reliability and minimum maintenance requirements inherited from the 680 platform characterized by a new look together with a superior wood grade. The fine engravings are made using state-of-the-art premium laser technology and are embellished by a special sparkle in the bas-relief areas, which creates a pleasing contrast effect, highlighting the deep scroll motifs on the receiver, opening lever, trigger guard, locking shoulders, pins and forend release. The exquisite gloss finish enhances the grain of the stunning grade 3 wood and protects it from rain and humidity. All these features are combined with the excellent ballistics guaranteed by the Steelium® Optima-Bore® HP tri-alloy steel barrels. Available as Hunting or Sporting versions, the 687 Silver Pigeon V is the shotgun for those who like to stand out with a gun that never stopped evolving over the course of 30 years, becoming an icon of quality and elegance.

Ultraleggero

Ultraleggero Vittoria	20	76	61-66-71	6x6	OCHP®	5 Chokes	35/45/55	RH-LH	Extralight®

The Ultraleggero begins a whole new chapter in the history of lightweight over and under shotguns, pushing the boundaries of design beyond all previous imagination; delivering the strength and reliability of a steel receiver but with an exceptionally low weight, something that had only previously been achieved with aluminium receivers. Thanks to the use of state-of-the-art engineering techniques, Beretta “skeletonised” the receiver and reduced weight in several components of the shotgun, including only the structural elements that are essential for the robustness, the performance and the balance of this shotgun. The result is a lightweight yet sturdy shotgun, ideal for hunters looking for a fast-handling gun that swiftly gets onto the game.

Enjoy your hunt, gun weight will no longer be a burden.

687 EELL Diamond Pigeon

687 EELL Diamond Pigeon Game Scene

687 EELL Diamond Pigeon Scroll

The exceptionally strong, low-profile receiver is elegantly adorned with exquisite game scene or intricate scroll engravings, made with the best in class premium laser engraving technology.

The stock and forend are superior quality walnut embellished with hand-cut chequering and lustrous gloss finish, demonstrating how improved performance and refined beauty can be perfectly matched.

687 EELL is assembled in Gardone Val Trompia, by the same skilled gunsmiths who work on Beretta fully customizable fine guns.

If requested, every 687 EELL model can be equipped with a made-to-measure stock and provided in a factory pairs.

486 *Parallelo*

Built with a beautifully proportioned, scroll engraved, round body receiver, the 486 is a modern classic in the making. Using a modified demi-block design, Beretta's Triblock® system allows for a seamless barrel profile in the best English tradition whilst the V spring mechanism ensures fast, crisp trigger pulls. The 486 Parallelo underwent a full restyling with a new premium deep scroll engraving on the iconic round-body receiver, providing a fresh look to the Beretta all-time classic side-by-side.

A woman wearing an orange Beretta cap and a dark jacket is crouching on a grassy hillside. She is holding a Beretta shotgun vertically. Two dogs, likely Weimaraners, are sitting next to her. The background is a misty, overcast landscape.

The Vittoria series is the Beretta shotgun range specifically designed for women. Vittoria shotguns feature a dedicated ergonomics, suited to those with a shorter stature, to ensure a smooth, comfortable and precise handling.

These guns are fitted with a shortened, semi-Montecarlo style stock, have a reduced pistol grip and additionally are completed by a 1 mm checkering, beneficial for smaller hands.

THE 9 REASONS TO CHOOSE THE BERETTA SEMI-AUTO TECHNOLOGY

- 1 PERFECT PATTERNS ON EVERY SHOT.**

The ingredients of the great accuracy of the Beretta Steelium® barrels are: the exclusive tri-alloy Beretta steel (Ni, Cr, Mo), the deep drilling, the cold hammer forging process and the vacuum distension. Every Optima-Bore® HP barrel profile has been specifically designed and tested to provide perfect accuracy with every type of shell: lead, steel and steel High Performance.
- 2 THE BEST RECOIL REDUCTION.**

Kick-Off®, Kick-Off® Plus and Kick-Off® Mega ensure you up to 70% recoil reduction giving you more stability, comfort and control for faster target acquisition. More comfort for you, especially when you enjoy shooting hundreds of shots in a single day, and enhanced durability.
- 3 UNBELIEVABLE RELOADING SPEED (+36%).**

The Beretta gas-operating system is fast like an eye's blink. That's why it's called B-Link®. The power of the gas-system, combined with the precision of the rotating bolt, ensure you a fast, reliable and smart cycling. You can spend all your magazine's cartridges before the 1st round touches the ground.
- 4 ALL-LOAD PROVEN RELIABILITY, FROM 24 TO 64 G.**

Beretta gas-operating system B-Link® is the world's most reliable system. The closing force is stronger because, when the reloading cycle begins, the energy available to unlock the bolt is significantly higher. Higher energy when opening allows higher closing force, preventing the bolt to unlock when it is not supposed to do it.
- 5 COMFORT AND EASY TO ASSEMBLE.**

The Extralight® recoil pad is 30% lighter than a standard recoil pad and much more resistant to abrasion, aging and the elements. Its closed cell structure avoids liquid absorption and its structure delivers comfort, stability and excellent recoil absorption. The B-Lok® cap, the magazine cap exclusive to Beretta, ensures a perfect and secure closing with just 60 degrees of rotation instead of multiple turns.
- 6 CLEANER THAN EVER AND EASIER TO CLEAN.**

With B-Link®, the only weak point of the gas-operating system has been practically reduced to zero. The re-engineering of gas ports and the systematic reduction of all the mechanical frictions reduce dirt to the minimum terms. You will experience the lowest maintenance need ever, and a smart, easy, fast and secure cleaning.
- 7 LOWEST MUZZLE JUMP.**

Beretta semi-auto shotguns give you the lowest muzzle jump ever combining the stunning recoil reduction of the Kick-Off® devices with the unique ballistic features of the Steelium® Optima-Bore® HP barrels. More control after each shot, better performance for the next one.
- 8 ERGONOMIC AND EASY TO OPERATE.**

The extended bolt handle and bolt release low profile lever allow for easier manipulation during the coldest and rainiest days. An enlarged loading port facilitates an easier and quicker reloading. The new extended lifter avoids thumb bite or glove catch while loading the gun.
- 9 DESIGNED FOR THE FUTURE, NEVER FORGETTING TRADITION.**

The Beretta in-house design team works every day to match design with functionality, giving you original and aesthetically beautiful, simple solutions that optimize the shape, weight and ease of use.

A400 Lite Synthetic

The Beretta A400 Lite is a hunting shotgun that does it all, and that doesn't mind playing hard and getting dirty. It's a 3" semi-auto shotgun combining the Kick-Off® Plus shock absorption, the unrivalled Beretta Steelium® barrels and a great package of smart, lightweight polymeric solutions. Fast, versatile, light and low-recoiling, the A400 Lite is also self-cleaning, requiring much less maintenance than you can expect.

Xtreme preparations, Xtreme conditions, Xtreme expectations. The A400 Xtreme Plus is built to go wherever your hunt takes you. Engineered to be the softest-shooting, most reliable 3.5" waterfowl shotgun out there, and to withstand the toughest waterfowl environments. It has the best recoil and muzzle rise reduction system in the world: the Kick-Off® Mega, combining 3 hydraulic shock-absorbers and return springs to reduce recoil up to 70% and the B-Steady® system, avoiding the annoying sliding of the nose piece on the cheek, to let your face perfectly firm on the stock and never lose the line of sight. It features Beretta's exclusive Steelium® Plus barrels, providing the best possible patterning from all hunting loads. An extended charging handle and bolt release from the factory allow for easier manipulation during the coldest and rainiest days. An enlarged loading port allows for ease of loading. The A400 Xtreme Plus shoots always, shoots everything and shoots even better!

forend with two textured grips

Beretta is stepping into the world of hunting rifles, offering a revolutionary firearm with a linear reloading system. BRX1 encapsulates all of Beretta's experience, acquired over years of working in both the military and commercial market. The BRX1 rifle guarantees the utmost speed, accuracy, safety and ease of use, from the first pull of the trigger to the reload. The smoothness of reloading, the interchangeable barrels of varying calibers, three trigger weight options, fully ambidextrous bolt and extraction side with the possibility to change from right- to left-handed without any tool make the BRX1 a versatile, modern, modular firearm suitable for every kind of hunter and shooting environment.

Since the Melbourne Olympics in 1956, Trap and Skeet athletes competing with Beretta shotguns have been awarded 57 medals. Among them, the legendary DT11 won 19 medals and countless international competitions.

The drive for competition and innovation has always pushed Beretta, which develops its products together with professional athletes down to the smallest detail to help shooters around the world break that one more clay and win.

With the superior ballistics of the Steelium® Plus and Steelium® Pro barrels and their triple extended forcing cone, the ergonomic design and extraordinary balance, Beretta shotguns have always stood by the side of shooters who want to get to their winning edge.

DT11

The most victorious shotgun ever. With DT11, balance, power and precision are in your hands, together with outstanding control and perfect trigger pull. The innovative Steelium® Pro barrels ensuring great pattern and reduced muzzle raise, the detachable trigger, the wide receiver improving stability and ease of handling and the B-Fast® adjusting devices make the DT11 the best competition over and under shotgun on the market.

DT11 is assembled in Gardone Val Trompia, by the same skilled gunsmiths who work on Beretta fully customizable fine guns.

Every DT11 model can be equipped with a made-to-measure stock upon request.

DT11 Black Pro Sporting

DT11 Black: the highest expression of the Beretta competition over and under, in a black and hyper-technological edition. Carbon fiber top rib, carbon fiber trigger plate and the most complete B-Fast® ever, featuring both stock and barrel balancing system. The choice of champions, in Black Edition. The DT11 Black Pro is equipped with Beretta by TSK® stock, fully adjustable, to adapt to the shoulder anatomy and to the shouldering style of any shooter.

DT11 Black Edition EELL Sporting

The EELL version of the DT11 Black Edition brings the use of carbon fiber to levels never reached before in the firearm world. In addition to the top rib, the trigger plate, and the trigger group, the Beretta DT11 Black Edition EELL over and under shotgun also features carbon fiber trigger guard and two innovative long side plates, where the engraving reflects the characteristic carbon fiber twill texture. The stock, made of grade 4 selected walnut wood, is available in an adjustable, fixed or headed version.

The oil finishing provides the wood with higher water resistance. The handmade 1 mm checkering gives the stock a more refined look and a firm and comfortable grip.

694

694 Sporting

694 Trap

694 is the over and under platform designed specifically for clay shooting, and with a precise goal in mind: to help shooters increase their success rate. Thanks to a meticulous mechanical and ergonomic design process, the 694 is perfectly balanced, natural and immediate when shouldering. The shape of the action and the stock provide increased field of view, while the new forend iron system allows to maintain the opening load constant over time, and the Steelium® Plus barrels guarantee a dense, uniform pattern every time. In addition to the Sporting and Trap version, the 694 is available also in Skeet, Down-The-Line, ACS (with adjustable top rib), Vittoria and Pro version (with adjustable TSK® stock).

686 SILVER PIGEON I Sporting

686 Silver Pigeon I Sporting (B-Fast)

The 686 Silver Pigeon I is Beretta's most popular over and under shotgun of all time. Based on the superb 680 platform, with its unmistakable low, slim action and legendary, ultra reliable mechanism; it won the hearts of shooting enthusiasts the world over. The 686 Silver Pigeon I incorporates the perfect ballistics of Beretta's highly reputed Steelium® Optima-Bore® HP barrels and it features a defined floral engraving, which is further enhanced with images of grapes on the vine and the iconic Beretta Three Arrows logo on both sides of the action. All of which combines to make the 686 Silver Pigeon I the most elegant, well-balanced and quick-to-shoulder, factory-made shotgun in the world.

687 SILVER PIGEON III Sporting

687 Silver Pigeon III Sporting

The 687 Silver Pigeon III shotgun represents an elegant evolution of the Silver Pigeon I, designed for shooters looking for the reliability and minimal maintenance requirements of the 680 platform, presented with attractive aesthetics and a superior wood finish.

The fine game scene engraving is embellished by a special sparkle in the bas-relief areas for a pleasant contrast effect, while exquisite gloss finish enhances the grain of the stunning grade 2.5 wood, protects it from rain and improves longevity. All these features are combined with the excellent ballistics guaranteed by the Steelium® Optima-Bore® HP tri-alloy steel barrels.

687 SILVER PIGEON V Sporting

687 Silver Pigeon V Sporting

The Silver Pigeon evolves with the V version: the efficiency, reliability and minimum maintenance requirements inherited from the 680 platform characterized by a new look together with a superior wood grade. The fine engravings are made using state-of-the-art premium laser technology and are embellished by a special sparkle in the bas-relief areas, which creates a pleasing contrast effect, highlighting the deep scroll motifs on the receiver, opening lever, trigger guard, locking shoulders, pins and forend release. The exquisite gloss finish enhances the grain of the stunning grade 3 walnut wood and protects it from rain and humidity. All these features are combined with the excellent ballistics guaranteed by the Steelium® Optima-Bore® HP tri-alloy steel barrels.

The Vittoria series is the Beretta shotgun range specifically designed for women. Vittoria shotguns feature a dedicated ergonomics, suited to those with a shorter stature, to ensure a smooth, comfortable and precise handling.

These guns are fitted with a shortened, semi-Montecarlo style stock, have a reduced pistol grip and additionally are completed by a 1 mm checkering, beneficial for smaller hands.

Beretta shotguns can be equipped with a wide range of accessories to take your shooting experience to its full potential. Complete your shotgun with Beretta products and live your passion to the fullest.

Accuracy, power, speed: these are the imperatives for a practical shooter.

Beretta's products designed for this discipline start from the strong base of the well-established 90 and 1301 platforms, but they have been internally redesigned alongside practical shooting champions to offer the best solutions for beating the clock and shooting down as many targets as possible.

Constant innovation work on ergonomics, balance, trigger and accessory compatibility has shaped Beretta pistols and shotguns to the needs of the shooter: the great success of 92X Performance and 1301 Comp Pro and the results of the Beretta athletes who use them is a proof.

1301 Comp

The Beretta 1301 Comp semiauto shotgun is designed to win tactical competitions right out of the box. Combining the technology of Beretta's best sporting shotguns with the requirements of the most demanding tactical shooters, it cycles faster than the other competition shotguns, handles like a dream and has oversized controls for super-easy operation. It is available in two barrel lengths (53,5 and 61 cm) and its receiver is drilled and tapered for rail mounts, so that it can be equipped with optics or tactical aiming devices without any gunsmithing. And thanks to its Optima-Choke® HP interchangeable choke system, it can also be adapted for other uses and will always perform like a Beretta.

1301 Comp	12	76	53,5 - 61	10x8 with step	OCHP®	1 Choke (****/IC) - Extension	Rubber

1301 Comp PRO

1301 Comp Pro

After gaining the podiums of the Shotgun World Championships with its incomparable cycling speed, the 1301 Comp evolves in the Pro version, incorporating the improvements suggested by the multi-rated Beretta shooters. With the comfort, stability and ease of shouldering of its stock, its super-fast, safe and easy loading system, the enlarged bolt release button and bolt handle and the Beretta by Tony System extended magazine for 10 + 1 cartridges, the 1301 Comp Pro is today the most competitive platform for practical shooting, already in its out-of-the-box configuration, yet allowing further personalization, so sought after by the most demanding shooters.

92X Performance
Optic

The 92X Performance: accuracy, power and speed the #1 choice of champions way. The Beretta handgun specifically designed for competition does not accept compromises and aims to top performances, by bringing on the shooting ranges one of the most reliable locking systems ever, along with a full steel Vertec frame, a heavier Brigadier slide and the surprisingly fast and crisp Extreme-S® trigger mechanism.

The 92X Performance is also available in the Defensive version, lightened, modified and now approved for IDPA and USPSA competitions and in the Optic version, red dot ready.

80X CHEETAH

80X Cheetah

Beretta brings back to the market a super classic: a compact pistol in caliber .380 with exceptional comfort and style. The 80X Cheetah reimagines the legendary 84 platform, with a sleek design and enhanced features. Ergonomically redesigned, the 80X Cheetah includes a compact size, a snag-proof Vertec style grip profile, a smooth Double/Single trigger with crisp break, skeletonized hammer, a 13+1 round capacity, and comes optics-ready out of the box. With an easier-to-rack slide, lightened recoil from tuning of the slide weight, spring rates, and chambering in .380, the 80X Cheetah is designed with an enhanced fit and balance for elevated speed and control. The 80X Cheetah Launch Edition comes with an anodized bronze frame and inox barrel: a special edition before leaving room for the classic black version.

90 Series

92 FS Grey

92 FS Bronze

The Beretta 92 has been setting the standards for best military, police and tactical pistol for over a quarter century. The reason is that it was designed, and has kept evolving to be and remain the most accurate, durable and reliable semi-auto handgun on the market. Easy to use, absolutely safe and delivering impressive firepower, it remains the sidearm of allied forces the world over, as well as of countless police and law-enforcement agencies.

Px4 Storm

Absolute durability, reliability, and ergonomics have made it the go-to choice for shooters around the world. Designed to meet the most stringent military standards of durability, the PX4 has been reported to fire well over 150,000 rounds with zero part breakage. The lines of the pistol are snag-free and make unholstering and reholstering easy and fluid. The pistol may be adapted to different hand sizes and shooting styles thanks to a modular design with interchangeable backstraps. The ambidextrous and reversible controls offer the possibility to easily train or shoot with either hand. Besides being one of the strongest actions available, the rotary barrel dissipates recoil away from the shooter's hand and greatly reduces muzzle jump, making it an extremely fast and accurate. Disassembly is designed to allow for quick field stripping.

APX^{A1}

Aqua Tech Shield coating for added corrosion and wear resistance

RDO ready with removable cover

Improved slide with aggressive serrations for sure racking in all conditions

APX A1

Enhanced ergonomics deliver consistent grip and superb control

Crisp, clean-breaking trigger with shorter, lighter pull and tactile reset

APX A1
Tactical

APX A1
Compact

The Beretta APX A1 encompasses the reliability and quality the APX family has become known for within the shooting communities. Years of extensive training and real-world use converge in a handgun designed and built for performance and maximum resistance. With a shorter and lighter trigger pull and tactile reset, the improved slide with aggressive serrations, the enhanced grip and its endless opportunities for RDO mount and further customization, the APX A1 creates ease of use for a wide range of end-users. Beretta APX A1 extends its range with its Compact version and with the Tactical version, with threaded barrel, suppressor height sights, wider magazine capacity and OD green frame.

1301 Tactical Inox / Marine

The 1301 is Beretta's gas operated semi-automatic shotgun engineered to be ultra-reliable and easy to use. Thanks to its compact size, it is ideal for negotiating tight spaces. It has all the features that a modern tactical shotgun should offer and it is easily adaptable to most users' needs, body type and shooting posture. Right out-of-the-box, the 1301 Tactical features an oversized charging handle, large textured bolt release and an oversized reversible safety button. The integrated B-Link® gas operating system, featuring a cross tube gas piston, allows the 1301 Tactical to cycle 36% faster than any other shotgun on the market. This also makes it ideal for 3-gun competitions.

PMX_S

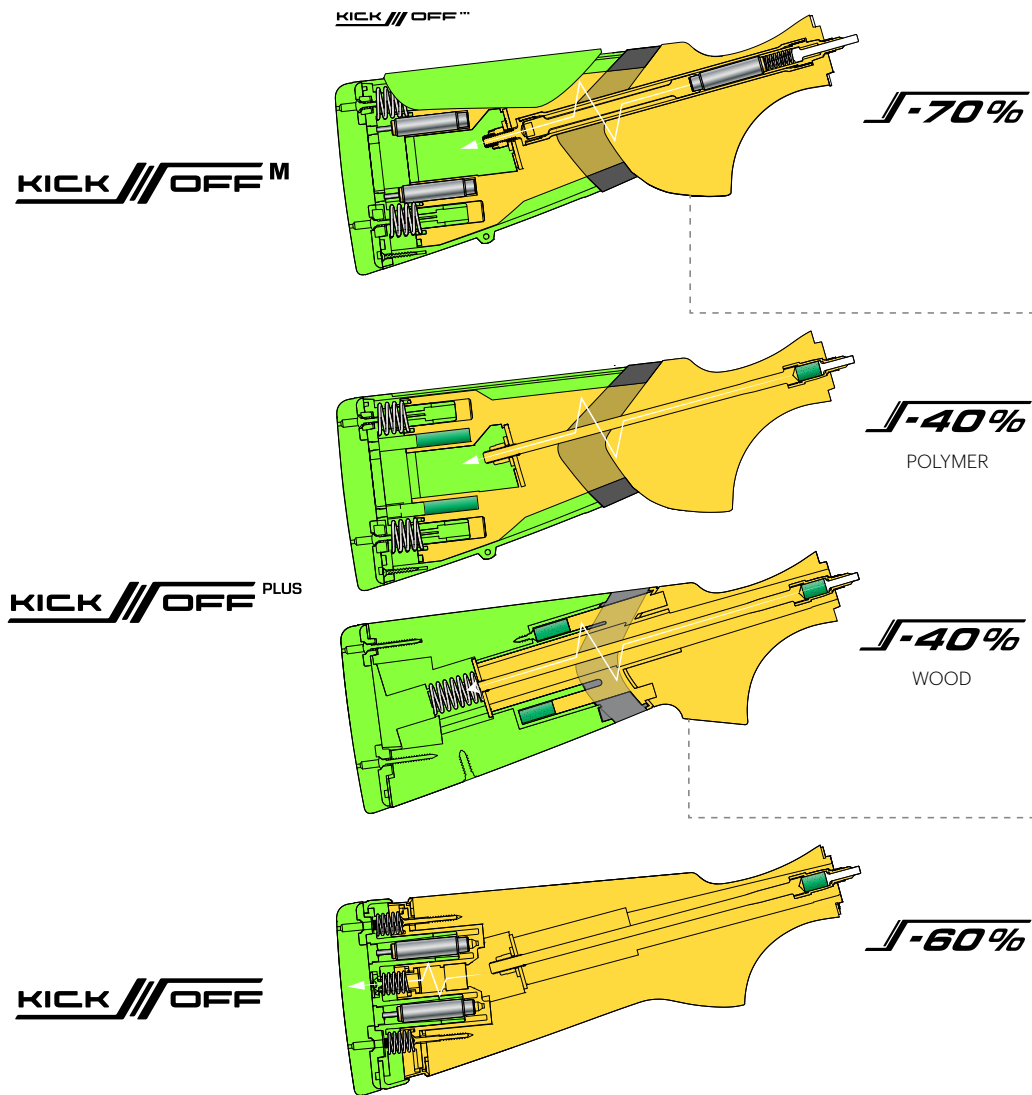

The PMXs is born out of Beretta's military experience: after the great institutional success of the PMX, the Submachine Gun dedicated to the commercial market is able to offer tactical enthusiasts the performance of a true professional weapon. The PMXs has many similarities that ascertain the military expertise behind it, guaranteeing accuracy, modularity and reliability in a single product, to meet everyone's needs, even landing in the world of PCC competitions.

BERETTA KICK-OFF® SYSTEM

WORLD'S BEST RECOIL AND MUZZLE RISE REDUCTION

Kick-Off® Mega is the most powerful recoil reduction system available today, ideal for 89 mm chambered shotguns, especially when you enjoy shooting high loads and hundreds of shots in a single day. It effectively combines 3 different devices that work synergistically, reducing the perceived recoil by up to 70%, ensuring greater stability, better control and faster target acquisition. Two hydraulic shock absorbers, similar to those used in the automotive and aerospace industry, positioned close to the rubber insert, together with return springs, effectively act on the first recoil peak. A third hydraulic shock absorber, inserted in the tie rod, acts on the second recoil peak caused by the impact of the slide against the receiver, further reducing the muzzle rise effect and the vibrations caused by the movement of the slide.

Kick-Off® Plus consists of two elastomer shock absorbers, positioned close to the rubber insert and equipped with return springs, which effectively act on the first recoil peak, reducing its perception up to 40%. A third elastomer shock absorber, inserted in the tie rod, absorbs the impact of the slide against the receiver, reducing the second recoil peak, the muzzle rise effect and the vibrations caused by the movement of the slide.

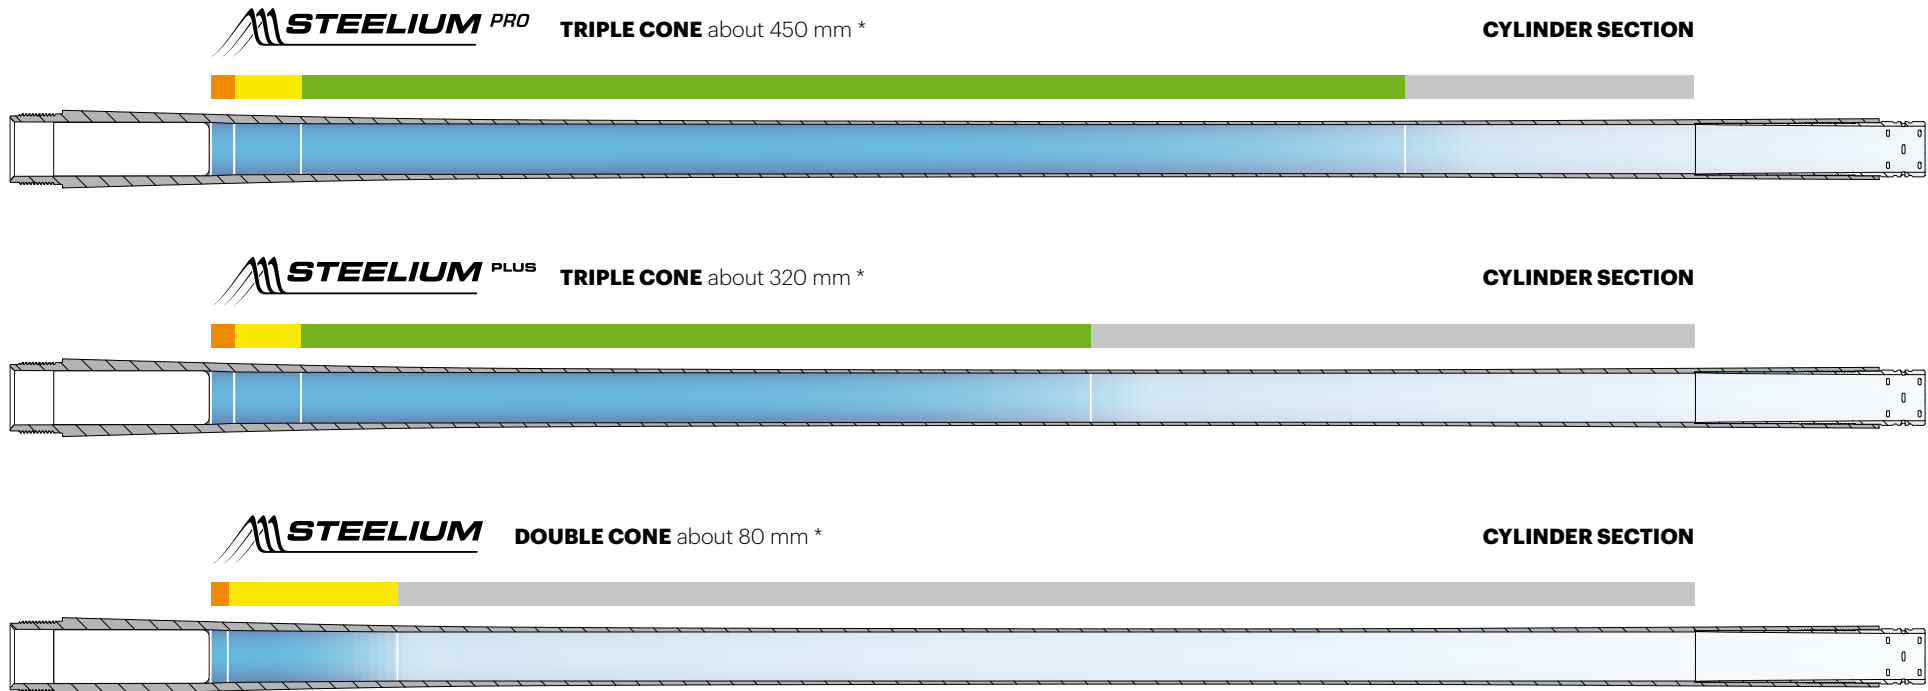

Kick-Off® is the first recoil reduction system developed by Beretta using hydraulic shock absorbers similar to those used in the automotive and aeronautical industries. It consists of two shock absorbers inserted close to the butt plate, completed by return springs, which effectively act on the first recoil peak, reducing the perceived recoil up to 60%. A third elastomer shock absorber, inserted in the tie rod, acts on the second recoil peak caused by the impact of the slide against the receiver, further reducing the muzzle rise effect and the vibrations caused by the movement of the slide.

The **B-Steady®** system divides the stock into two sections: stock and pistol. The point of absorption of the recoil is in an advanced position, integral with the pistol, which is free to move back, leaving the stock stable and avoiding the annoying sliding of the nose piece on the cheek. The face remains firm and perfectly steady on the stock, without ever losing the line of sight.

STEELIUM® BARREL

THE BEST BALLISTIC PERFORMANCE ON THE MARKET

The ingredients for the stunning performance of the Beretta **Steelium® barrels** are: the exclusive tri-alloy Beretta steel (Ni, Cr, Mo), the deep drilling, the cold hammer forging, the vacuum distension and the 80 mm extended forcing cone. The inner profile of the Optima-Bore® HP barrels has been designed and tested to provide perfect accuracy with every type of shells: lead, steel and High Performance steel. This results in perfect patterns on every shot.

The **Steelium® Plus** barrels have a triple forcing cone that reaches a length of 320 mm (in a 76 cm barrel). In **Steelium® Pro** barrels, the length of the forcing cone is further extended, up to 450 mm (in 76 cm barrels). This progressive inner profile of the barrel provides smoother shots with reduced muzzle rise and guarantees perfect, dense and uniform patterns with any type of ammunition.

* The indicated lengths are based on 76 cm barrels.

LEGAL NOTES: while every effort has been made to make this catalog as complete and accurate as possible, changes may occur at any time in the illustrations, descriptions, colors shown, and technical specs listed. Beretta provides ongoing improvements to its products and consequently, all specifications can vary without notice.

THE OFFICIAL BERETTA FIREARM ASSISTANCE

In Beretta, the maintenance of your firearm is carried out by a professional Beretta gunsmith, a member of the same team who gave life to your gun. Our know-how, the use of the last generation equipment, authentic spare parts and accessories ensure the best possible care for your Beretta firearm.

Today our gunsmiths are able to provide you the best service on:

- Barrel maintenance and treatment
- Wood making and treatment
- Mechanical parts maintenance, repair and replacement and much more.

Contact your local Beretta dealer to receive assistance on your firearm.

**GOT A NEW BERETTA FIREARM?
EXTEND YOUR WARRANTY!**

Register your firearm on registeryour.beretta.com and extend your warranty from 2 to 3 years*.
Enter Beretta community and discover a new world of benefits.

Registration is due within 30 days from purchase. Terms and conditions: beretta.com/en/garanzia-del-fabbricante

*Some countries may apply enhanced warranty conditions, please verify with your local distributor.

BERETTA DIGITAL USER MANUALS: ALL THE TIPS YOU NEED, ALWAYS AT YOUR FINGERTIPS

With just a click, you can access the user manual for your Beretta firearm right from your smartphone, find all the info you need, and go on with your adventure straight-away!

The new Beretta digital user manuals are:

- Always accessible wherever you are
- Easy to navigate and search
- Available with additional support capabilities, including HOW-TO videos showing you how your firearm works and how you can take care of it.
- Always updated
